

Changing Your Password, Security Question or Email

04/16/2024 9:43 am MDT

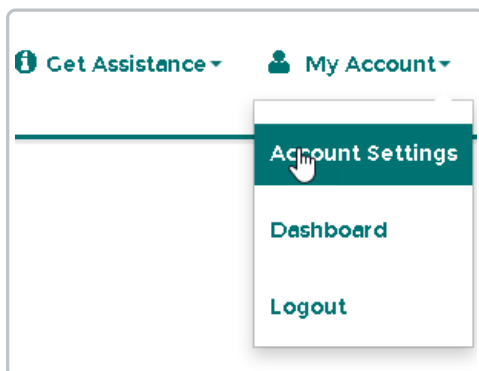

You can update your password, security question, or email at any time in Account Settings when you are logged into your account.

Here are some important tips to remember when updating your Account Settings:

- Passwords and security question answers are case-sensitive
- If you cannot remember your security question or continue to receive an error that your entry was incorrect, contact customer service at 855-944-3246
- You may not change your email address to one used by another Your Health Idaho account. Contact customer service if you own the email address you wish to update your account to and are unable to complete the change.

Steps:

1. Log in to your Yourhealthidaho.org account.
2. From the top navigation bar, select **My Account** then **Account Settings**
- 3.

Select **Change Your Password, Change Your Security Question** or **Change your Email Address** to complete the changes desired
